Some Pacific Coast History Repeated.

A member of the Legislature of California in 1861 writes to the New York California was saved from an attempt at secession by the foresight and prompt i and prudent action of President Lin coln. Shortly after his inauguration he commissioned General E. V. Sumner and ordered him to repair to California and relieve General Sydney Johnson, then in command of the Pacific Department. Sumner went abourd the steamer in New York incognito, and his departure was not known publicly until he had reached his destination. Reaching the Golden Gate at midnight, he commanded the Captain of the steamer to come to anchor in the harbor until daylight, while the General took a small boat and went ashore. Calling upon Johnson at his lodgings at the Oriental Hotel he informed the latter that he had been appointed his successor. Johnson replied that if he would call upon him at headquarters in the morning the department would be turned over to him. Summer, producing his commission, said to Johnson: "There is the authority, under which I am directed to take command of the Department of the Pacific, and I insist upon being placed in possession here and now." The transpossession here and now." fer was then made, and the news sent oy telegraph all over the State the folsionists, both in and out of the Legislature. Lincoln, General Scott and a Re-

publican Congress were bitterly denounced for the gross outrage upon the above General. Upon repairing to the barracks General Sumner found thou sands of arms and accontrements stored there, of which no loyal man in the acter that they refused to file it. State had any knowledge. The pre-sumption was that they were the quota which had been sent to California in the grand distribution of President Buchanan's Cabinet preparatory to the organiin the possession of the Democratic members of the Legislature. General Summer at once reshipped the sarplus arms and ammunition to Washington, where they were so much needed in the early days of the war, and General Johnston went to Southern California, where Hancock has been reported to nave been stationed, organized a company of secession sympathizers, stole an equipment of arms from the State, marched across the continent, joined the Confederate army and was killed at the battle of Shiloh. That was how California was saved to the Union, and in the affair General Hancock took no Herald.

EDITOR ENTERPISE: The Democrats are playing a smart game in Churchill county. I am acquainted with several members of a party of men who were sent to Charchilliast Saturday, who are anything to do in the way of work, but they do know that they are expected to vote the Democratic ticket. The majority of the members of the party are naturally Republicans, but they are poor and out of work, and I suppose the poor fellows had to take the first

job they could get. V. S. Rumors were rife in this city on Churchill county polled at the last election 128 votes, and it is very kind and charitable of the Democratic party to thus populate it, and by increasing its vote, give it more importance among the counties of the State.

REPUBLICAN PLATFORM.

THE FOLLOWING IS THE PLATFORM

of the National Republican Party adopted by

the Chicage Convention:

Republican rule has restored upon a solid basis payment in coin for a 1-be mational obligations, and has given us a curn my absolutely goes and legal, and equal in every part of our extended country. It has lifted the cradit of the nation from the point where six per cent. bonds sold at 66, to that where six per cent. bonds are easy ty sought at a premium. Under its administration railways have increased from it up miles in 1866 to more than 82,100 miles in 1875. Our foreign t ade has increased from 3700,00,000 to \$1,150,00,000 in the same time, and our exports which were \$20,000 000 less than our imports in 1879. Without reswring to loans, it has, since the war closed, duryod the ouritary expenses of Government, besides the accuting int rest on the public debt, and disbursed annually more than \$3,000,000 for soldlers' pension. It has paid \$800,000 for soldlers' pension. It has paid \$800,000 of the public debt, and by refunding the because allows rates has reduced the annual interest charge from meanly \$5,51,400,00 to be sat than \$80,000,000. All the industries of the country have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a coming prosperity ge after than we have ever enjoyed (lipon this record the ito ublican perty asis for the coninued confidence and support of the people, and this Convention abunits for their approval the following statements of the principle and purpose which will continue to guide and inspire its effects:

Fifth—We reafile in the belief avowed in 1876, that the duties eved for the purpose of revenues should so discriminate as to favor American labor. That no further grant of the public domain should be made to any raife ad eve other corporation. That slavery having perished in the Sates, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a crizen of American light must be secured to citizens of American slopiton. That it is the duty of Congress to day op and improve our watercourses and harbors, but we insist that arther subsidies to private persons or corporations must cease. That the obtigation to the men who preserved its integrity in the day of battle are undivinished by the tapes of fiften years since their final victory. Their perpetual honor is and shall forever by the printeful privilege and the sacred duty of the American people.
